

As part of the "obSERVING NATURE" project, iSea, in collaboration with the **School of Spatial Planning and Development, AUTH**, invites you to a seminar on the topic:

**"Citizen Science: A valuable tool for increasing scientific knowledge"**

**WEDNESDAY NOVEMBER 22, 2023**

**9:30-13:00 Seminar at the Auditorium of the Central Library of AUTH**

**13:30-15:00 Bioblitz at Gallikos River Wetland**

**Register to attend [here](#).**

*The project is implemented in the framework of the initiative for the iconic species of Greece, funded by WWF Greece*
